<b>Deliverable Number :</b>	<b>2.3</b>		
<b>Deliverable Name:</b>	Training Kit for Partners on How to Create Machinima		
<b>Description:</b>	All project partners will receive explanations about the technical aspects of how the machinima works, so they can more confidently disseminate the results of the project. This kit aims to increase the awareness of a language teacher about the set of didactical possibilities of machinima as working on machinima initially seems to be intrinsic. Despite the time and labor commitment required from both teachers and students, machinima effectively supplements traditional teaching methods; moreover, it provides educational and creative challenges which can inspire and motivate both teachers and students.		
<b>Dissemination</b>			
<b>Signed off by:</b>	Project Coordinator
