Deliverable Number:

2.4

Deliverable Name:

Videos for Teacher Training Course in Form of Machinima

<u>Description:</u>	Videos for teacher training course in the form of machinima aim to present machinima teaching and testing possibilities (e.g., training productive and receptive skills; pronunciation, intonation, etc.). Teachers involved in such creative processes notice that machinima trigger the in-depth interpretation of the presented topic and develop a greater awareness and depth of understanding. Machinima allow students to understand complex issues and to express them in a creative way. When teachers are engaged in creating machinima, they also learn to apply in practice basic knowledge about film production.
